COMPUTATION AL CHAOS

USING ULTRA FINITIST

NON STANDARD METHODS

NAME OF EXPERIMENT

CHALISQUE MINDF\$\*@ EXPERIMENT

THE POINT IS

TO SHOW THAT

THE UNCERTAINTY THAT

I CARRY AROUND

IN MY LIFE

ON ITS OWN

EXCEEDS THE CAPACITY

OF MATHEMATICS ITSELF

TO EVEN MEASURE

% exit one region of stability (3), enter another (5)

AND THE REASON WHY IS

I PWND MATHEMATICS

AND THAT MEANS

"I so owned those mother fuckers that"

"They cannot even find enough bits left"

"After I ran my computation through"

"To find enough quantum bits"

"To spell the word"

**The Experiment Is This:**

**I am convinced that psychiatry is bullshit.**

**I am certain of it.**

**I was certain 15 years ago, and I still am.**

**I was curious just how far they could drive me to the edge of insanity.**

**Because it's actually pretty cool up here,**

**provided you have the Mind Capacity**

**to keep yourself stable here.**

**I do, but the cost is this:**

**I ultimately lack capacity in all other areas.**

**But that is ok now.**

**Because two days ago.**

**On Sunday Morning.**

**I had the proof I needed.**

**The name of the proof is 'moomoo'.**

**I am radiating my thoughts, my Love, my Compassion.**

**I am letting the 'voices' have as much control of me as they like.**

**I believe I can step in before they cause harm.**

**But I can let things go enough that it looks like,**

**for example,**

**"little #moo is riding the Johnchalisque" is an imaginary child having fun**

**moomoo, I believe, is a real human being on the edge of insanity.**
